Course Title : Quantitative Analytical Methods
Course Number : 501723
Credit Hours : 3
Pre requisite : 
Placement : 
Instructor: 
Course Description : 
This course aims at enabling students to learn how to formulate and test hypotheses by using different statistical techniques. That include building mathematical models and estimating them by designing time-series or cross-sectional and panel data-based regression models and discusses estimating problems. This course also covers other parametric and non-parametric analyses and tests.
